### Allgemeine Hinweise

#### General information

- Bitte überprüfen Sie die Lieferung vor Beginn der Montage auf Vollständigkeit und einwandfreien Zustand. Bei Schäden, die während der Montage auftreten, können wir Ihnen keinen Garantieanspruch zugestehen. / Please check delivery before you start mounting. Everything has to be complete and in a faultless condition. We are not liable for damages resulting from mounting.
- Wir empfehlen die Montage mit zwei Personen durchzuführen. / Some of the assembly steps may require two people to complete.
- Achten Sie darauf, dass die Fläche, auf der Sie die Montage ausführen, die Oberflächen der Mülltonnenbox nicht zerkratzt. / Make sure that the surface on which you perform the assembly does not pose the risk of scratching the elements!
- Montieren Sie nicht bei Wind! Dieses Produkt muss im Boden verankert werden, um richtig gesichert zu sein! / Do not assemble in windy conditions! This product requires to be anchored into the ground in order to be properly secured!
- Halten Sie alle mitgelieferten Kleinteile oder Verpackungsmaterialien von kleinen Kindern fern. Bauteile haben scharfe Kanten oder ragen heraus, achten Sie beim Zusammenbau und im Gebrauch darauf. / Keep all supplied small parts or packaging materials away from small children. Components have sharp edges or protrude, pay attention to them during assembly and during daily use.
- Vergewissern Sie sich, dass Sie alle notwendigen Werkzeuge haben, bevor Sie mit der Montage beginnen! Achten Sie auf die Symbole, die anzeigen, welches Werkzeug Sie bei jedem Schritt verwenden müssen. / Make sure that you have all the necessary tools before you start the assembly! Look for symbols representing which tool to use in each step.

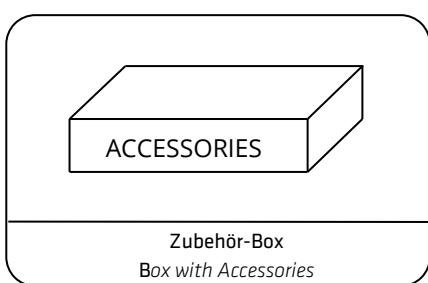

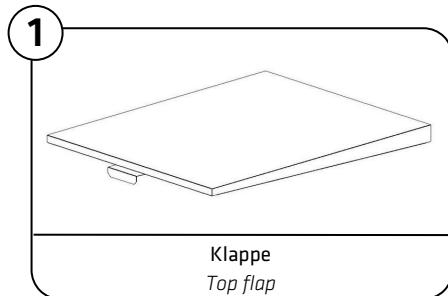

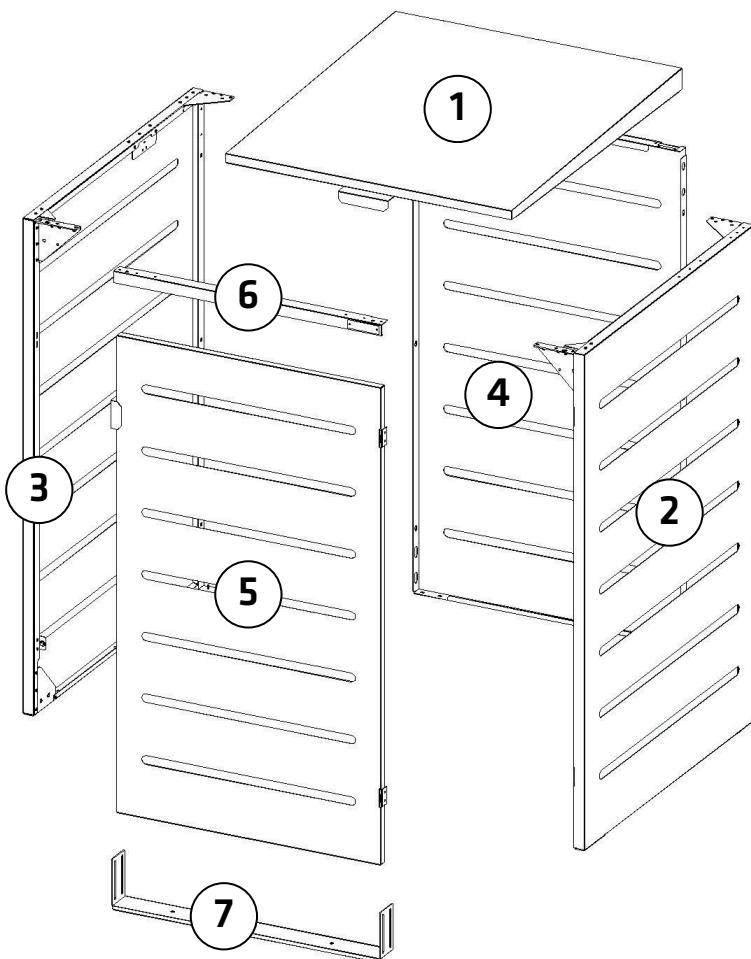

### Benötigte Werkzeuge

#### Required tools

 7	7 mm Schraubenschlüssel 7 mm spanner		Kreuzschlitz Schraubendreher Phillips screwdriver
 10	10 mm Schraubenschlüssel 10 mm spanner		Wasserwaage Level

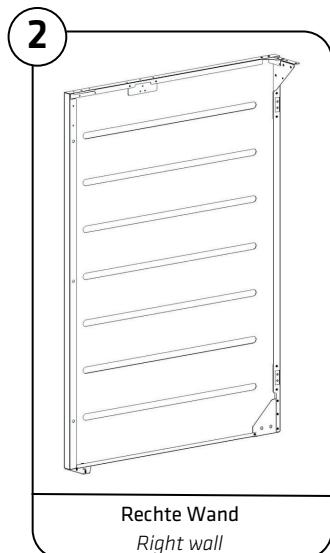

## Bestandteile des Starterset

*Starter set components*

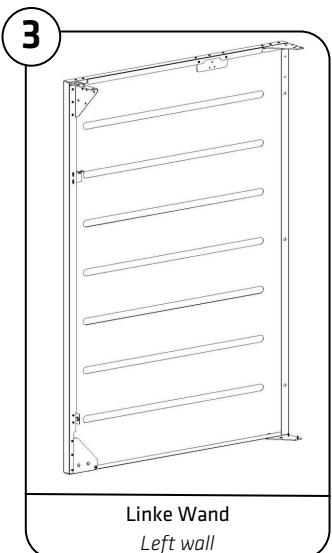

Klappe  
Top flap

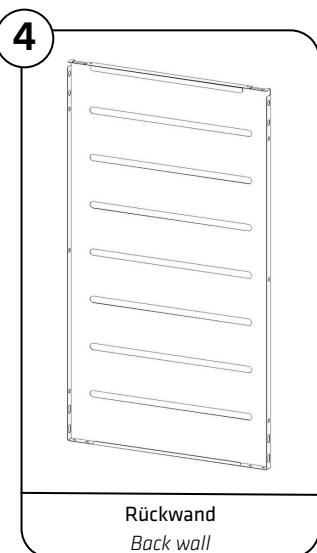

Zubehör-Box  
Box with Accessories

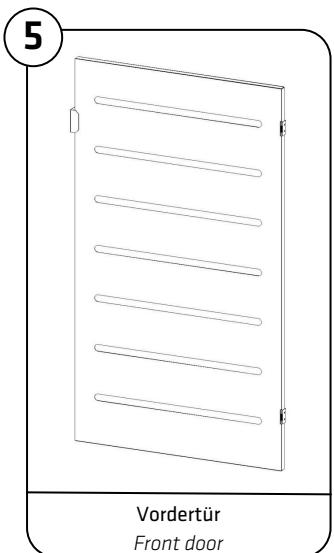

Rechte Wand  
Right wall

Linke Wand  
Left wall

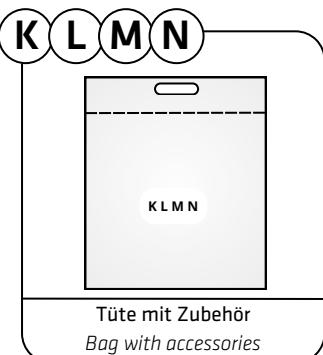

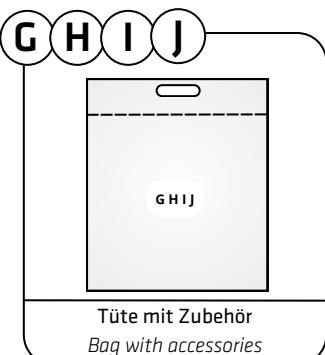

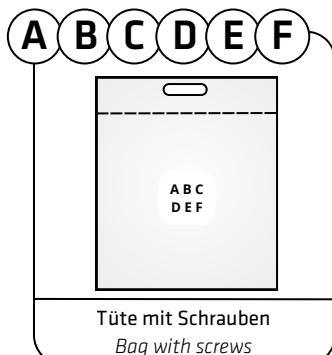

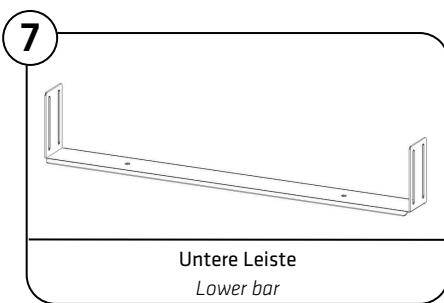

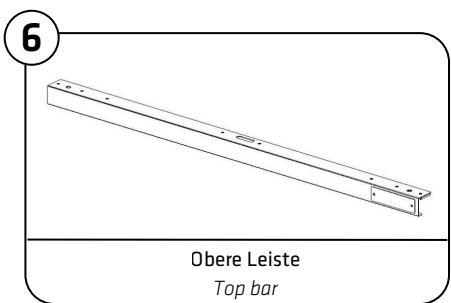

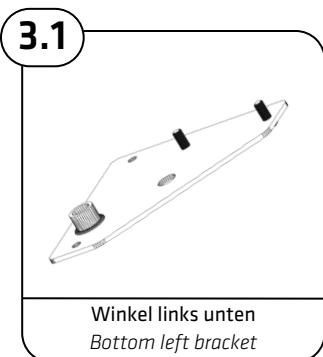

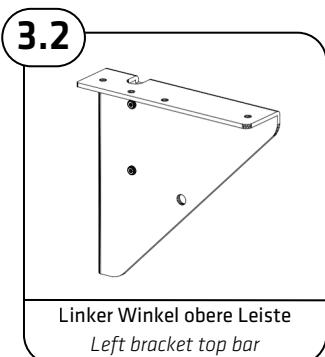

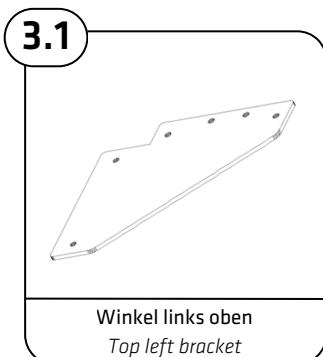

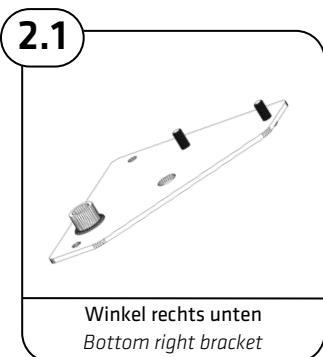

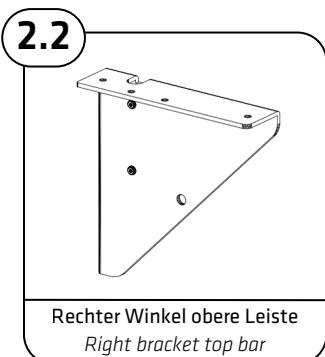

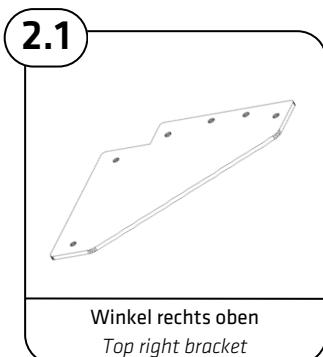

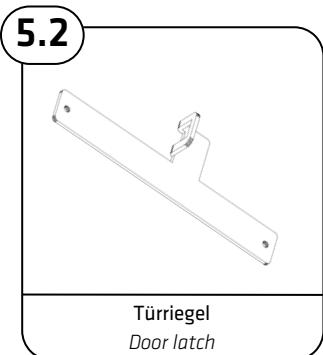

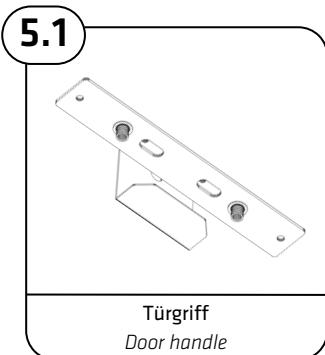

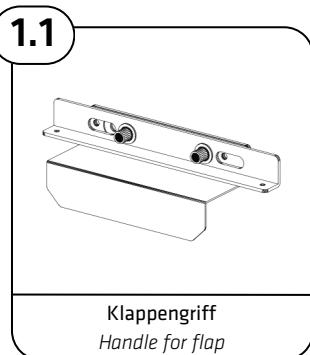

Rückwand  
Back wall

Vordertür  
Front door

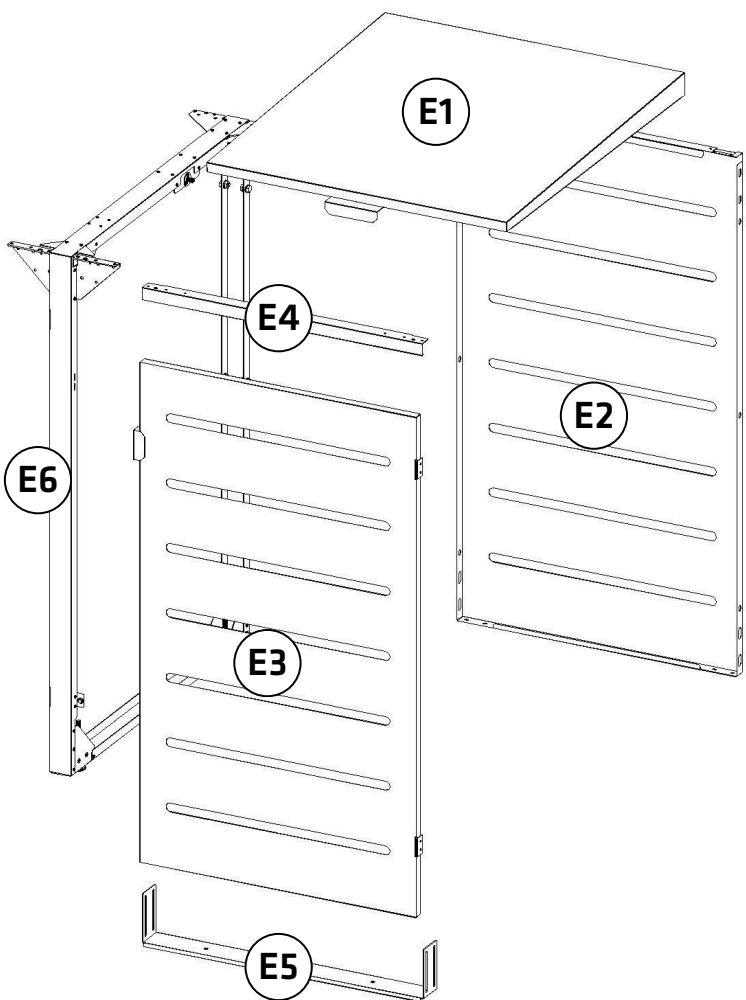

## Bestandteile des Starterset: Inhalt der Zubehör-Box

Top bar

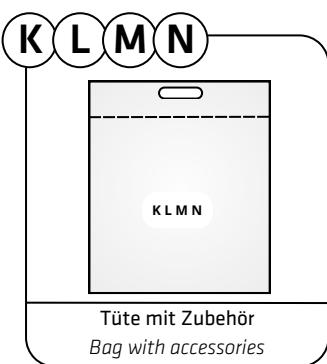

Untere Leiste  
Lower bar

Tüte mit Schrauben  
Bag with screws

Tüte mit Zubehör  
Bag with accessories

Tüte mit Zubehör  
Bag with accessories

## Zubehör / Accessories

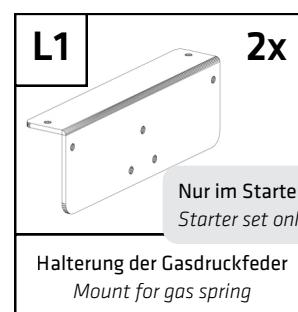

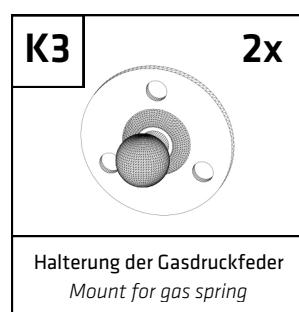

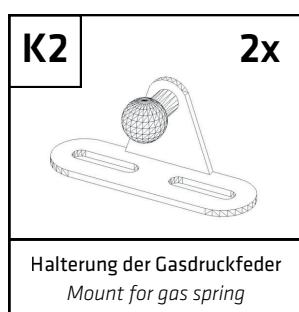

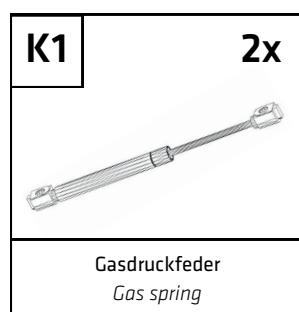

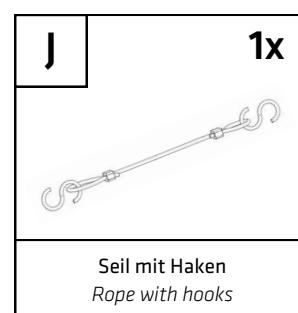

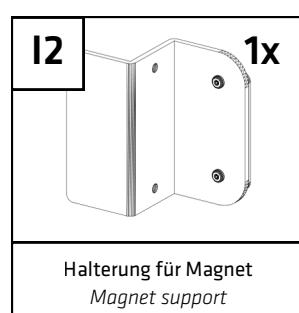

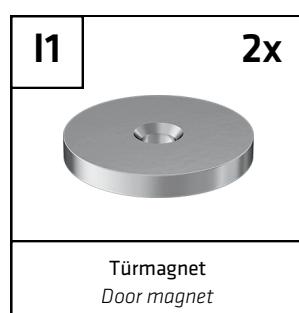

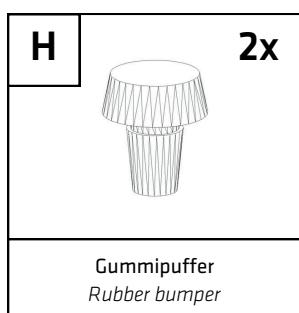

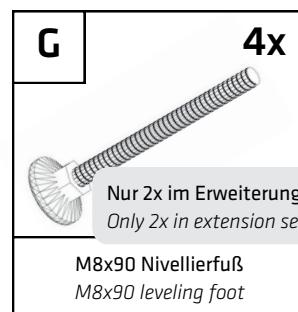

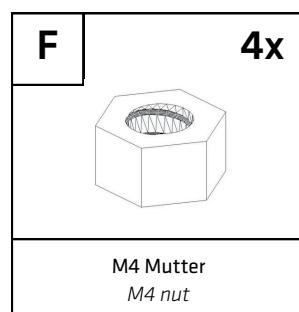

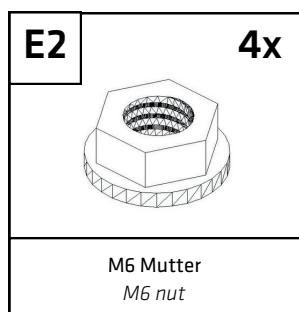

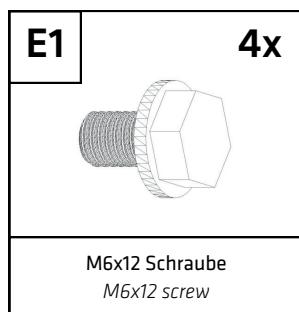

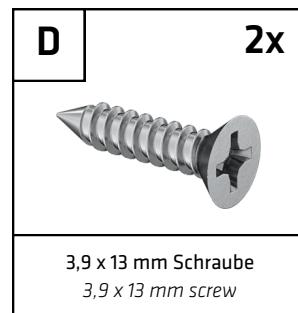

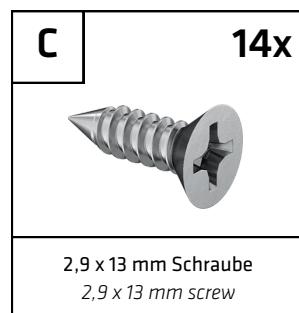

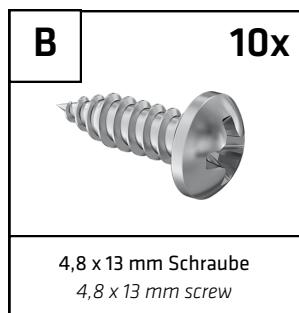

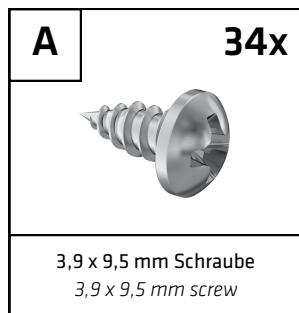

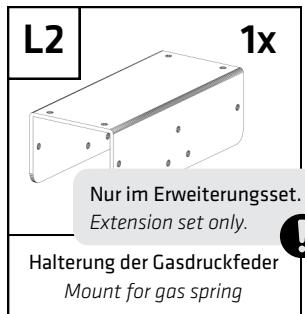

Für das Starterset und das Erweiterungsset werden die gleichen Schrauben und das gleiche Zubehör verwendet. Achten Sie darauf, dass Sie diese für eine einfachere Montage getrennt aufbewahren.

*Both the starter set and the extension set use the same set of screws and accessories. Make sure to keep them separated for easier assembly.*

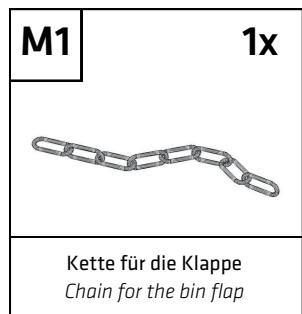

Ziehen Sie die Schrauben nur handfest an – für einen sicheren Sitz ohne Materialbeanspruchung.  
*Tighten the screws only hand-tight to ensure a secure fit without stressing the material.*

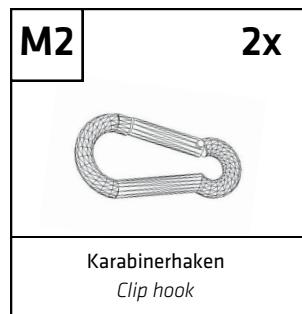

Halterung der Gasdruckfeder  
Mount for gas spring

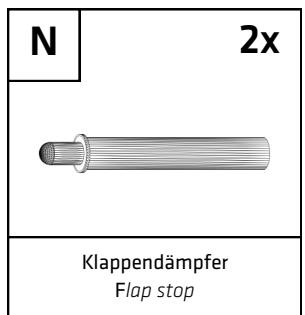

Kette für die Klappe  
Chain for the bin flap

Karabinerhaken  
Clip hook

Haken für Klappe  
Hook for bin flap

Klappendämpfer  
Flap stop

## Schritt 1: Vorbereitung der Seitenwände

Step 1: Preparing the side walls

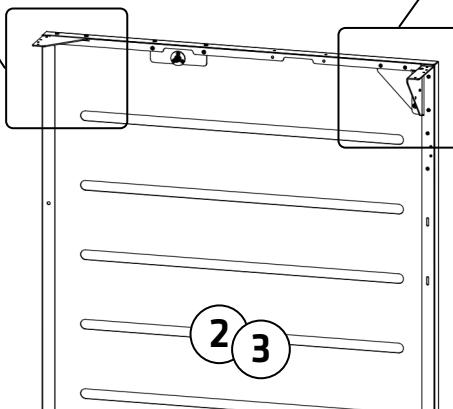

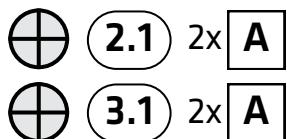

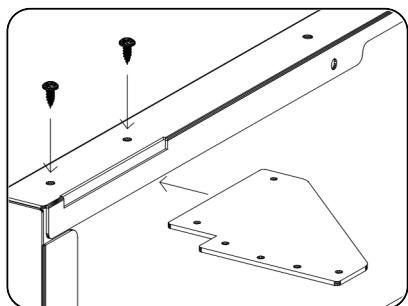

Bereiten Sie die rechte und linke Wand vor. Benötigte Teile:  
Prepare the right and left wall. Necessary components:

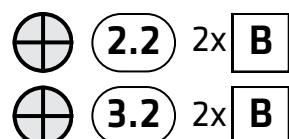

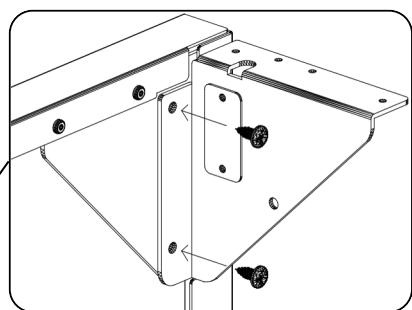

### Schritt 1.1

Step 1.1

### Schritt 1.2

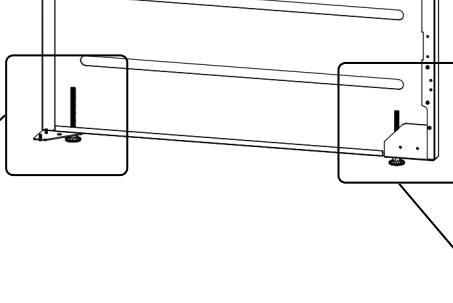

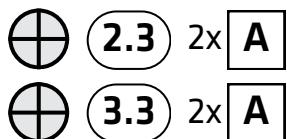

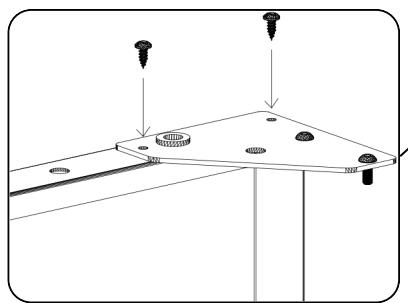

Step 1.2

Drehen Sie die Wand nach Schritt 1.2 auf den Kopf. After completing step 1.2 turn the wall upside down.

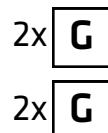

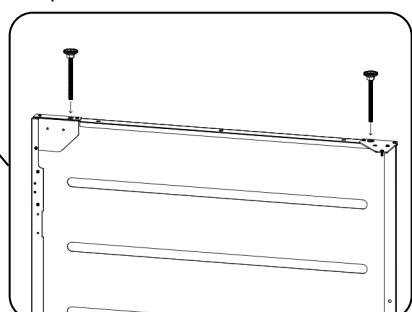

### Schritt 1.3

Step 1.3

### Schritt 1.4

Step 1.4

## Schritt 2: Montage der rechten Seiten- und Rückwand

Step 2: Connecting the right and back wall

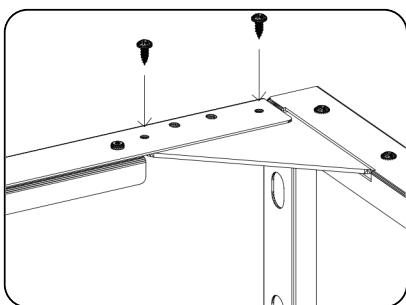

Drehen Sie die rechte Wand wieder richtig herum. Schieben Sie die Rückwand von oben nach unten in die Schlitze der rechten Wand, um sie zu verbinden. Benötigte Teile:

Return the right wall to stand upright. Slide the back wall down into the guiding slots of the right wall to connect them. Necessary components:

2 4 A F E1 E2 7 10

### Schritt 2.1

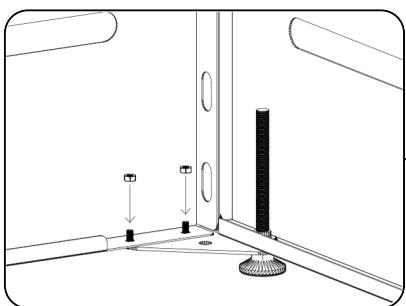

Step 2.1

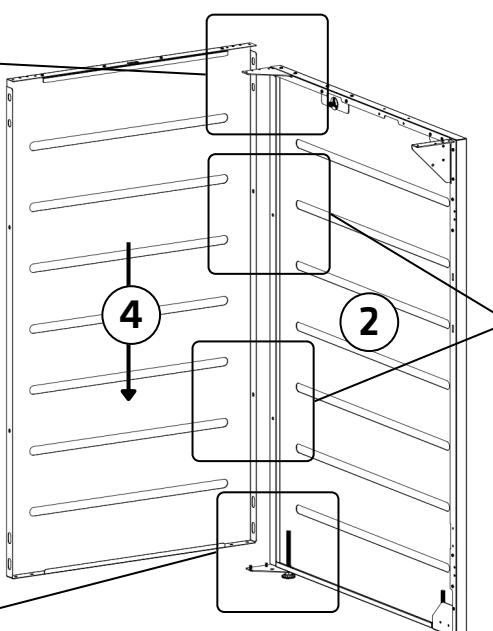

2x A

### Schritt 2.2

Step 2.2

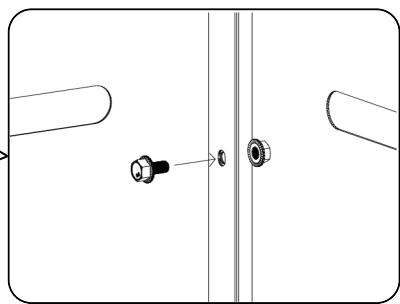

7 2x F

### Schritt 2.3

Step 2.3

10 2x E1 2x E2

Ziehen Sie die Schrauben erst nach Abschluss der Montage fest, um eine bessere Justierung zu ermöglichen.

Do not tighten the screws until you complete the assembly to allow better adjustment of the box later.

Wiederholen Sie Schritt 2, um die linke Wand anzubauen, oder fahren Sie mit Schritten 3 bis 4 fort, um ein oder mehrere Erweiterungssets anzubauen. Machen Sie danach mit Schritt 5 weiter. / Repeat step 2 to add the left wall, or continue with steps 3 to 4 to add one or more extension sets. Then continue with step 5.

## Schritt 3: Vorbereitung des Erweiterungssets

Step 3: Preparing the extension set

Bereiten Sie die Zwischenwand vor. Benötigte Teile:

Prepare the middle section. Necessary components:

#### Schritt 4.3

##### Step 4.3

10 2x E1 2x E2

Ziehen Sie die Schrauben erst nach Abschluss der Montage fest, um eine bessere Justierung zu ermöglichen.

*Do not tighten the screws until you complete the assembly to allow better adjustment of the box later.*

Wiederholen Sie Schritte 3 bis 4 für alle Erweiterungssets. Kehren Sie danach zu Schritt 2 zurück, um die linke Wand anzubauen.

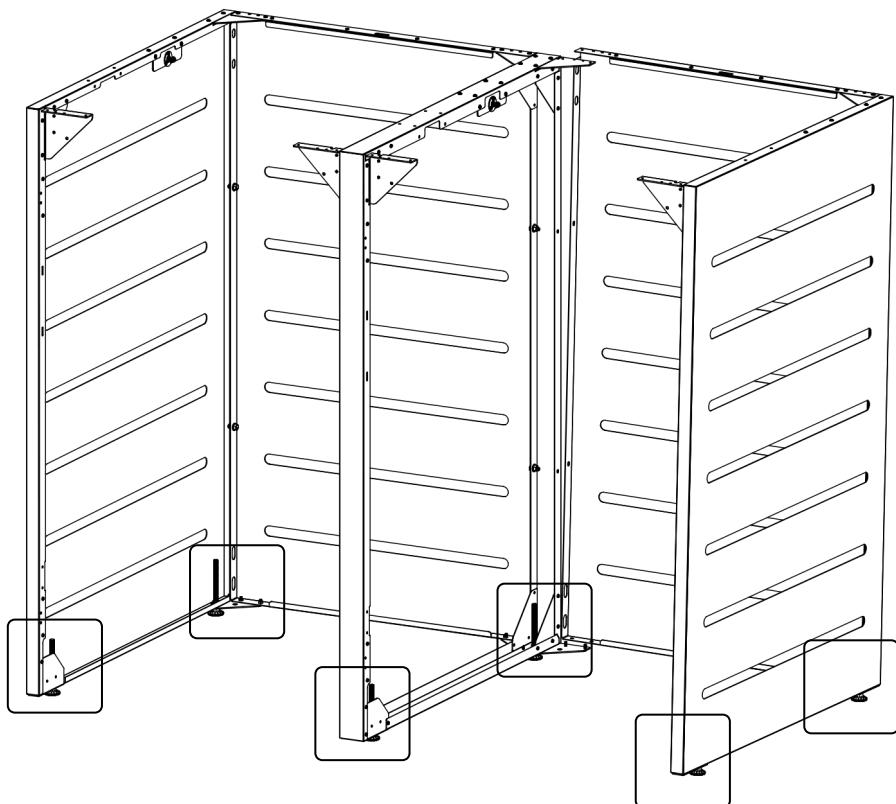

*Repeat steps 3 to 4 for all of your extension sets. Then return to step 2 to add the left wall.*

## Schritt 5: Ausrichten der Mülltonnenbox

### Step 5: Leveling the box

Richten Sie die Mülltonnenbox mit Hilfe der Wasserwaage und der Nivellierfüße aus. Vergewissern Sie sich, dass sie gerade steht, bevor Sie mit der Montage fortfahren. Dann können Sie die Schrauben aus den vorherigen Schritten festziehen.  
*Adjust the level of the bin box using the level and adjustable feet. Make sure it is straight before continuing the assembly. Then you can tighten the connecting screws from the previous steps.*

## Schritt 6: Anbringen der oberen Leiste

Step 6: Connecting the top bar

E5

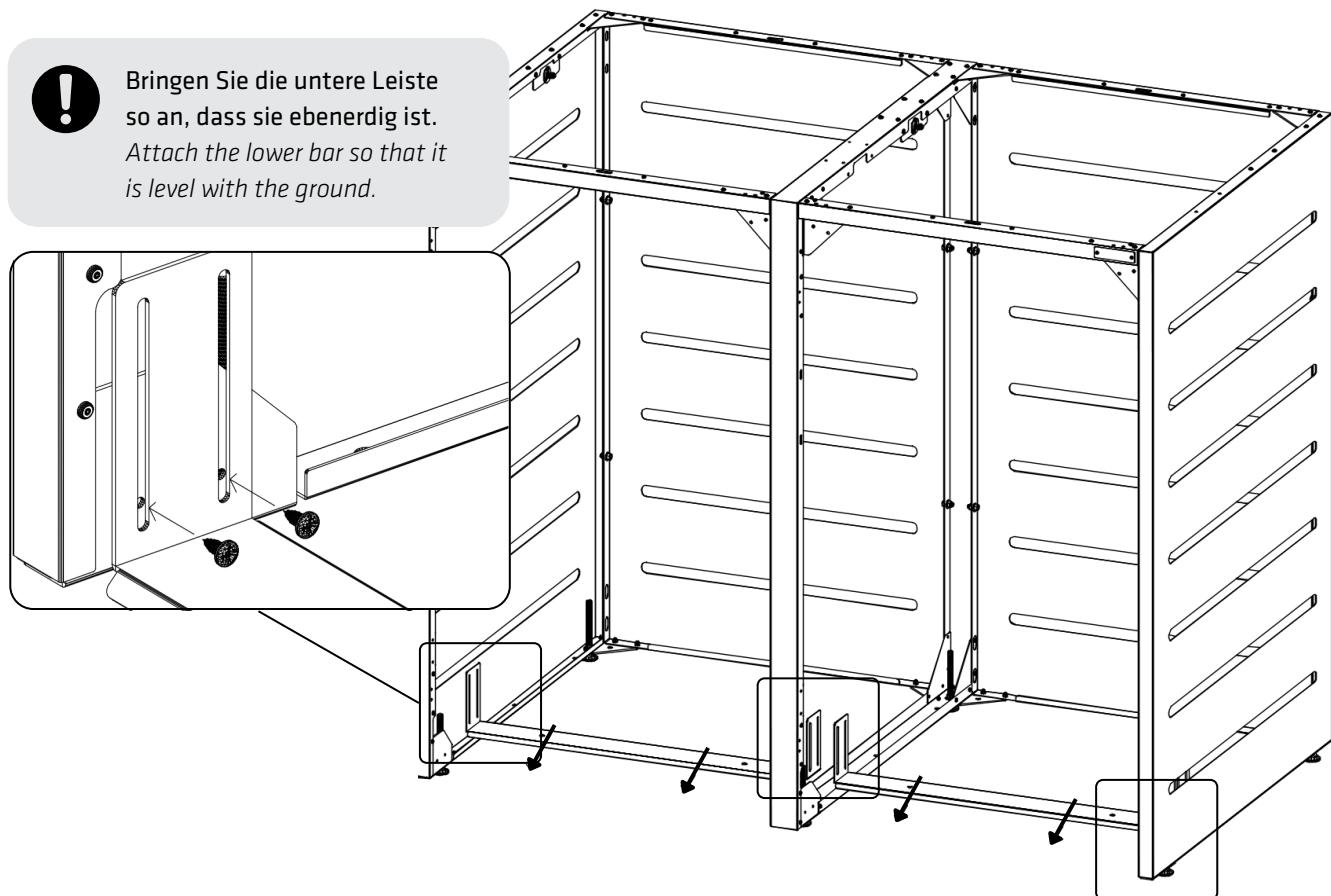

4x

Bringen Sie die untere Leiste

so an, dass sie ebenerdig ist.

Attach the lower bar so that it  
is level with the ground.

## Schritt 8: Anbringen der Tür

### Step 8: Connecting the door

Entscheiden Sie, ob Sie die Tür nach rechts oder nach links öffnend montieren möchten. Lassen Sie sich beim Anbringen der Tür von einer anderen Person helfen. Vergewissern Sie sich, dass die Tür gerade ist, bevor Sie die Schrauben festziehen.

*Decide whether you want to install the door so that it opens to the right or to the left. Ask another person to help you fit the door. Make sure that the door is straight before tightening the screws.*

## Schritt 13: Anbringen der Kette

Step 13: Attaching the chain

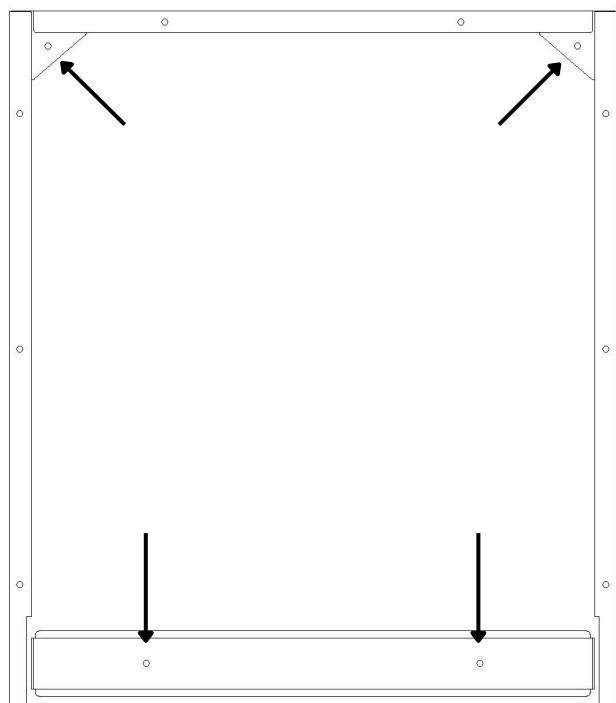

Benötigte Teile:  
Necessary components:

**M1** **M2** **M3**

## Schritt 14: Bodenverankerung

Step 14: Anchoring the box to the floor

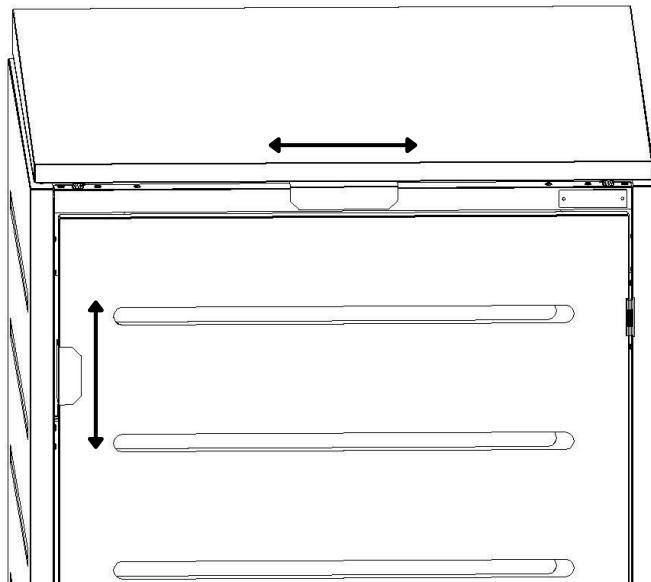

Die Mülltonnenbox muss im Boden verankert werden, um richtig gesichert zu sein! Das Montagematerial für die Bodenverankerung hängt vom Untergrund ab und ist daher nicht im Lieferumfang enthalten. Vergewissern Sie sich, dass die Box eben ist, bevor Sie sie im Boden verankern.

The bin box needs to be anchored in the ground to be properly secured! The installation material needed depends on the surface and is therefore not included in the scope of delivery. Make sure that the box is level before anchoring it to the ground.

## Tür und Klappe öffnen

*Opening the door and flap*

Um die Tür zu öffnen, ziehen Sie den Griff nach oben. Um die Klappe zu öffnen, schieben Sie den Griff nach rechts.

*Pull the handle up to open the door. Slide the handle to the right to open the flap.*
